Dear Mr. Foster:

On behalf of INTEROP '88, I am pleased to extend you an invitation to speak at this year's conference. I am chairing a session entitled "Building a TCP/IP Network," and invite you to speak about your in-house TCP/IP network.

We are primarily interested in: a) Why you chose TCP/IP? b) Other solutions you considered? c) Problems in implementing? d) Variety of systems hooked up through your network? e) "Neat" things you've been able to accomplish with an interoperable network. Your presentation would last approximately one half hour.

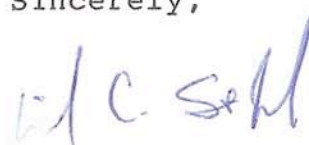

The conference takes place 26-30 September 1988 in Santa Clara, CA at the Santa Clara Convention Center and Doubletree Hotel. The session you would speak at is currently scheduled for 10:30-12:00 on the 29th of September.

It is my understanding that conference fees are waived for conference speakers. I am currently trying to confirm this. Enclosed is a copy of the conference bulletin to provide you with logistical information.

If you are able to attend and speak, please inform me immediately. Upon receiving your confirmation, I will send you additional information pertaining to the session and will solicit your requirements for support equipment such as slide or overhead projectors.

I look forward to working with you on this session - I think with your help we can make this an interesting, exciting and informative presentation.

Sincerely,

A handwritten signature in blue ink, appearing to read "M.C. StJohns". The signature is written in a cursive style with a large, sweeping initial "M".

Michael C. StJohns
